Professional Summary

Motivated Computer Science Engineering undergraduate with a strong foundation in data structures, object-oriented programming, database management, and data analytics. Hands-on experience as a Sales Analytics Intern at Aditya Birla, working on customer behavior analysis and interactive dashboards using Excel and Power BI. Experienced in machine learning and deep learning projects in healthcare.

Education

Vellore Institute of Technology - Bhopal Oct. 2022 – May 2026

Bachelor of Technology in Computer Science and Engineering CGPA: 8.1/10.0

Technical Skills

Programming Languages: Python, Java, SQL
Core Concepts: Data Structure, Object Oriented Programming, DBMS

Projects

1) **Baymax**
   - An AI-powered chatbot that converses with users, answers medical queries, and may give basic health advice
   - Symptom analysis using machine learning algorithms such as Random Forest, aiming to predict potential diseases or issues based on user inputs
   - Use of Python, pandas, scikit-learn for developing machine learning models
2) **Alzheimer-Detection**
   - Early Alzheimer's detection from medical image data using Convolution Neural Network (CNN)
   - Data visualization for results interpretation.
   - Documentation and reporting for reproducibility.
   - This type of project bridges computer vision and medical imaging, demonstrating the power of deep learning for real-world disease prediction and diagnostic support

Internship

Sales Analytics intern (Aditya Birla)

- Analyzing customer behavior and acquisition in the stock market using Excel and Power BI closely aligns with many real-world analytics and reporting practices in industry.
- Report Creation: Developing interactive dashboards and reports that let stakeholders explore customer purchase patterns, first purchase dates, and overall engagement in stock market products enhances business intelligence and supports data-driven marketing and customer retention.
- Stock Market Customer Behavior: Reports may reveal correlations between stock market activity and consumer spending or investment tendencies, helping organizations predict customer needs and optimize marketing.

Certifications

- Database Management: Oracle SQL Certificate, What is Data Science by IBM
- Data Science: Data Science with Python (iamneo | VIT Bhopal)
